Doctoral candidate:

Co-author:

Co-author:

(3) *Data collection and illustrations*

Doctoral candidate:

Co-author:

Co-author:

(4) *Analysis and interpretation of the data*

Doctoral candidate:

Co-author:

Co-author:

(5) *Composing the manuscript*

Doctoral candidate:

Co-author:

Co-author:

In summary I name _____ (number) publications or manuscripts.

The information on the individual publications is confirmed.

Date/place

Signature *Doctoral candidate*

Date/place

Signature *supervisor*

Date/place

Signature *corresponding author*

*1 The name of the journal may only be mentioned when the work has been accepted, is in print or has been published.

*2 Authors are those persons who have contributed to the work in relation to the points mentioned in such a way that they are (jointly) responsible for the passages shown. Persons who have contributed to the work. Persons who do not fall into this category should be mentioned in the acknowledgements.

* For (2), (3), and (4), please provide percentages along with a brief content statement; for (1) and (5), percentages are sufficient.

If it is a review, please note this in brackets after the title of the publication. In addition, in this case (2) is invalid, please note "n/a" there. Under (3) it is then about the "literature collection" instead of the "data collection". Please change this in the form!
